

The Voice of Canada's Growing Pellet Sector

Safety Committee member responsibilities:

- To treat the committee as a high priority commitment and will make every effort to attend meetings and conference calls.
- To refrain from treating safety as a competitive advantage.
- To cooperate and be open about sharing safety information that would benefit the collective safety of our industry.
- To commit to apply what is learned from the Safety Committee's work to raise their own company safety performance to the highest level.
- To be aware that each company's individual safety performance reflects on the reputation of entire industry.

Operation of the Safety Committee:

- Members meet by conference call for one hour on the second Wednesday of each month at 11:00 a.m. Pacific time.
- The Safety Committee prepares an annual work plan and monitors progress against this plan on each conference call.
- Safety Committee members each volunteer to take responsibility for specific tasks from the annual work plan.
- All Canadian pellet producers are welcome to join the Safety Committee.

To join, please contact Gordon Murray at gord@pellet.org.
